One date-selected 1960 illustration; not a validation test
A Observer-day medians in the fixed illustrative window
Visual magnitude (fainter downward)
Onset bracket
Prefix end bracket
Issue
At/before issue time
Fainter-than bounds
Later observation times
Later fainter-than bounds
Extraction threshold
B Saved frozen forecasts, conditioned once on survival to issue
Probability of next onset within the stated wait
Later onset bracket (scoring outcome)
Frozen timing (M2)
Frozen timing + duration (M3)
Days from forecast issue (native JD 2436989.5)
